

AVer PTC320UNV2

Al Auto Tracking NDI'|HX PTZ Camera

Full NDI® | HX for Greater Reach

The PTC320UNV2 complies with the most rigorous NDI standards to deliver the lowest latency for on-air camera control, switching, and streaming - all via IP connection. It makes live broadcasts faster and simpler, allowing users to stream for larger audiences without complicated and expensive equipment. Design efficient and flexible IP workflows at will.

NDI®

Resolution

Zoom

IP/HDMI/ USB/3G-SDI

Human **Detection AI**

Presenter Mode

Zone Mode

Hybrid Mode

Intuitive Web UI

Upside-Down Installation

21X Optical & 12X Digital Zoom

The zoom power of the PTC320UNV2 reaches an incredible 252X (21X optical and 12X digital zoom). It works even while the camera is panning and tilting, allowing you to highlight content and rapidly change shooting angles. Operate a closer and clearer video feed with the unbeatable PTZ performance of the PTC320UNV2.

Human Detection AI

Welcome AVer's most advanced AI tool yet—Human Detection. This highly accurate processing function enables the PTC320UNV2 to easily detect and capture human forms and moving objects in seconds. Never miss a tracking target again.

Click & Track

Redirect focus in an instant with the PTC320UNV2. Simply click on a target to quickly adjust the shooting angle and initiate precise tracking. This advanced feature is easy for anyone to operate via remote control or Web UI.

Presenter Mode

Track your target everywhere with Presenter Mode. This feature gives presenters the flexibility to leave the stage and interact with the audience, all while being continuously tracked. The camera stays locked on its target, even if other people or objects get in the way.

Zone Mode

Zone Mode enhances your ability to capture content on multiple displays. Create up to four Content Zones to steadily capture the content on display rather than the presenter's movements.

Hybrid Mode

Hybrid Mode provides the utmost freedom of movement for performing artists. Preset effective areas for Zone Tracking in advance, and once you step into those areas, you will be targeted together with the content. When you are outside, you are just like in Presenter Mode.
